

# Cancer Care

## Compassionate Care. Medical expertise.

At Above and Beyond Home Care, we understand that cancer patients often feel more comfortable and secure being cared for at home. Being surrounded by family, friends & familiar surroundings is simply where you feel best. With offices throughout Indiana, ABHC provides the utmost in home health care services for cancer patients. We are Medicaid certified and offer 24/7 care when necessary.

## An intimate connection to cancer care.

Joni Kendall, RN, founder of ABHC, knows first hand what its like to care for a loved one fighting cancer. Her sister, Connie, was diagnosed with cancer in 2005. Joni cared for her sister daily during her nine month long battle. Sadly, Connie's battle was not won. However, Joni remembers Connie everyday in the way she cares for others facing cancer.

## How does the process work?

An ABHC nurse will visit you at home and evaluate the care needs you and your family have. Then, working with your doctor, we'll set up a Plan of Care and also recommend any available payment assistance programs. Your Plan of Care may include some or all of the following:

### Registered Nurse Care

- Wound Care
- Ostomy Care
- Intravenous (IV) Treatments
- Giving & Supervising Medications
- Pain Control

### Physical Therapy

- Regaining the use of impaired or weakened muscles
- Improving range of motion
- Education on use of special equipment

### Home Health Aides

- Personal Care
- Personal Hygiene
- Personal Errands

### Home Support

- Laundry / Housekeeping
- Shopping
- Meal Preparation
- Errands

### PERSONAL NOTE FROM JONI

*Caring for my sister was one of the hardest yet the most rewarding experiences of my life. I feel the care we provide to our cancer patients is a tribute to my sister's memory. We provide the best medical care and just as importantly, . . . we treat our patients with respect and a caring heart. We're there to listen, and we're there to help."*

*-Joni Kendall, RN*

Contact us today to schedule your free health needs assessment. We look forward to caring for you!
