

Quadriplegic & Paraplegic Care

Your Home Comfort. Our Home Care.

Above & Beyond Home Care specializes in providing services for people living with acute spinal cord injuries and conditions. By receiving medical attention in the comfort of your own home, you can regain your sense of independence while being surrounded by family, friends & familiar surroundings. ABHC provides the utmost in home health care services for quadriplegic and paraplegic patients throughout Central Indiana. We are Medicaid certified and offer services ranging from occasional visits to 24/7 care.

How does the process work?

An ABHC nurse will visit you at home and evaluate the care needs for you and your family. Then, working with your doctor, we'll set up a Plan of Care and recommend any available payment assistance programs. Our services include:

Did you know?

In cases where a skilled nurse is needed to help you at home, care is usually covered by insurance. If not, community agencies often provide services on a "sliding" payment scale that takes into account your income. We can help direct you to resources who can help determine if your care is covered.
